I got engaged in the
it was a good workshop
with student coming
up with new ideas,
~~very~~ urging us to
make our own project.
There was little bit
less coordination in
the workshop.

- 59
- Weak coordination
 - At last speak was not clearly audible
 - ~~Exp~~ Expectation was a bit higher

32
They should have more sound and otherwise they perfectly managed. ~~and~~

34
~~The~~ Co-presenter with the system, he was not well prepared for the workshop.

- 33
• Not very in-depth workshop.
• Overall a good workshop for beginners.
• PPT not used to explain concepts.
